Protected with 6 layers of armour.

We guarantee that your door furniture will still be working and looking sweet for 20 years.

The six layers of armour kept Ultion Sweet looking great after being hammered with salt water for over 8000 hours. The accreditation standard is only 240 hours.

Cycle test champion.

Not all door handles have their build quality tested in a cycle test. But those that do hope to achieve the accreditation standard of 100,000 cycles. Ultion Sweet was still opening and closing doors after 360,000.

Better news. Multi-layer insulated letter box.

As well as looking great the Ultion Sweet letter box is really clever. The traditional frame and flap design is replaced with a single wrap around design to stop the elements creeping through the butt joints.

Two internal skins bring additional sound and thermal insulation.

Knockout.

The Ultion Sweet curved design ethos transforms the door knocker into a design statement.

Knock. Knock.

The new Ultion Sweet Classic Knocker combines timeless aesthetics with modern functionality, now offering customers the choice between two distinct styles - the sleek modern design or the elegant traditional urn style.

Easy to handle.

Say hello to the new Ultion Sweet Easy handle. It guarantees stylish access for everyone whilst also meeting DDA requirements.

The longer lever returning towards the door surface makes the handle easier to hold and operate.

A Sweet patio handle.

Make your home fully suited with the Ultion Sweet Patio Handle. Its edgeless design deters intruders, while the robust brass and nickel coatings ensure long-lasting charm. Embrace elegance and reliability as you upgrade your patio doors.
